

/ DMC 1000

Four-stream digital media center with progressive-scan DVD video/audio playback and 250GB internal hard drive

Highlights

- Progressive-scan DVD playback
- HDMI™ 1.1 output
- Upscaling to 720p and 1080p
- Playback from and recording to media cards and USB devices
- Front/rear-panel USB input
- Four simultaneous playback streams
- DMP The Bridge-ready
- Plays DVD-Audio
- Gracenote® music recognition service
- RS-232-based control
- Auxiliary input
- MP3 and JPEG playback
- Bass management

Substantially smaller but vastly smarter and better-looking than your average CD storage rack, the DMC 1000 will digitize, catalogue and store as many as 60,000 songs as you play them, allowing you to banish all those aging jewel cases to the attic. It will also let you distribute separate audio streams from your music library to up to four different locations in your home. With touch-sensitive front-panel controls (the ultimate no-button design) and concealed front-panel USB jack and memory card slots, the DMC 1000 will even let you transfer your music for use in portable players and media card-equipped cars and cell phones. And your iPod? Full audio/video playback and charging with The Bridge universal dock (sold separately and very much worth it).

Key Specifications

- Frequency response – DVD (linear PCM): 2Hz – 22kHz, ± 0.5 dB (48kHz sampling); "A"-Weighted S/N Ratio: >105 dB; THD: 0.0025%; Dynamic Range (DVD): 100dB (18-Bit)/105dB (20-Bit); (CD): 96dB
- Dimensions (H x W x D) and weight: 105mm x 440mm x 404mm (4-1/8" x 17-5/16" x 15-5/16"), 9kg (19.8 lb)

Depth measurement includes knobs, buttons and terminal connections, unless stated otherwise; height measurement includes feet and chassis, unless stated otherwise.

/ DMC 1000

Four-stream digital media center with progressive-scan DVD video/audio playback and 250GB internal hard drive

Features

Connectivity

- Dolby® Digital- and DTS®-compatible digital outputs
- Front- and rear-panel USB jacks for flash drives (up to 8GB) and external USB hard drives (client only, FAT or FAT32)
- One HDMI 1.1 output with 1080p upscaling
- One wide-bandwidth component video output, S-video and composite video outputs
- Six-channel-direct outputs for use with external surround decoders in the main room (Zone 1)
- Three stereo analog outputs for Zones 2, 3 and 4
- RJ-45 Ethernet jack for connection to broadband network
- Connects to the Harman Kardon® The Bridge docking station for iPod audio and video playback (up to G3), control and charging
- Auxiliary input for converting analog audio to MP3 files on media cards or USB drives
- Two front-panel card slots for SD, MMC, Memory Stick® and CompactFlash cards
- RS-232 port for bidirectional system control and home automation

Ease of Use

- Records from a CD to the internal media library (250GB hard drive, which will hold up to 60,000 songs)
- Plays audio and still-image files from the media library, solid-state media cards, USB portable drives or iPod
- Transfers audio and still-image files to and from media library, solid-state media cards, USB portable drives or recordable CDs
- Streams audio to up to four independent zones simultaneously, allowing different areas of the home to enjoy unique programs
- Gracenote music recognition service* for identification of album name, artist and genre, as well as cover art display
- Unique Harman Kardon-designed high-definition user interface simplifies operation
- DVD playback upscaled to 1080p with HDMI 1.1 output for single-wire connections
- Converts analog audio to MP3 files in the media library or on media cards or USB drives via the auxiliary input
- Recording quality: Lossless (.wav), Best (MP3: 320kbps), High (296kbps), Medium (192kbps), Basic (128kbps)
- Two-line, 20-character dot-matrix front-panel display
- Front-panel controls using advanced touch-sensitive technology
- Playback of MP3 and (HD) JPEG files, ID3 v1 tag support
- Adjustable viewing options include aspect ratio and multiple angle
- Full-featured backlit remote control
- Detachable IEC power cord
- Four-speed smooth scan and slow motion, Frame-by-frame advance
- Program playlist, random and repeat play (one track, one CD or A-B)
- Parental lock
- Software upgradeable via CD-ROM

* Music recognition technology and related data are provided by Gracenote®. Gracenote is the industry standard in music recognition technology and related content delivery. For more information, visit www.gracenote.com.
